

CAPABILITIES STATEMENT

CAMRIS' mission is to deliver customized scientific research and development solutions for our military and government customers worldwide to ensure their mission success. By leveraging our strong and agile partnerships, CAMRIS provides impactful, evidence-based health products and technologies to improve warfighter readiness and the lives of service members and their families around the globe.

CORE COMPETENCIES

Military Operational Medicine Research

Biomedical research designed to deliver solutions to warfighters throughout the deployment cycle. Novel physiological and technological countermeasures that enable warfighters to perform at peak condition in a myriad of dynamic operational environments.

Infectious Diseases

Surveillance, outbreak detection, and the design and development of rapid point-of-care, field-ready infectious diseases identification devices for warfighter protection.

Clinical and Rehabilitative Medicine

State-of-the-science clinical, biomedical, engineering, and genomic research to deliver cutting-edge materials, knowledge products, and novel rehabilitative medicine solutions to prevent and restore health, ability, and quality of life to service members.

Military Population Health

Epidemiology, public health, and behavioral health expertise to assist the DOD to determine the underlying factors and potential interventions for health concerns, environmental exposures, alcohol and drug use/abuse, PTSD, TBI, obesity, sexual assault and trauma, and tobacco use.

WHAT SETS US APART?

Our adaptive management style, paired with our knowledgeable personnel, comprehensive management systems, extensive network, and tested processes, allow us to source, place, and manage scientific, technical, professional, and administrative personnel for nearly any type of project on short notice anywhere in the world.

Current/Past Performance

- Defense Health Agency
- Walter Reed Army Institute of Research
- U.S. Air Force 59th Medical Wing
- Naval Medical Research Center
- Naval Medical Research Unit 3
- Naval Medical Research Unit 6
- Naval Medical Research Unit, San Antonio
- Naval Health Research Center, San Diego
- Naval Medical Research Unit, Dayton

CONTRACT VEHICLES & CERTIFICATIONS

- GSA PSA 00CORP SINS 874 - 1,4,7
- CDC ITOPSS 3.0
- NIH NIAID PSTSS
